

## **Appendix J**

### **Summary of Reported Large Water Users**

## J.1 Overview

The Forum surveys conducted for this project asked responding water providers to list large commercial and/or industrial water customers as well as any large water users that could use non-potable water on their system. The following list is compiled from survey responses and is only representative of those providers responding to the survey.

Purveyor	Large Commercial/Industrial Users	Other Large Users that can Use Non-Potable Water
